***Allowable Subject Matter***

1. Claims 1-9 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The declaration under 37 CFR 1.132 filed 03-03-04 is sufficient to overcome the rejection of claims 1-9 based upon Akashi et al ('485).

Applicant's amendment, filed 12-29-03, is sufficient to overcome the rejection of claims 1-9 based upon Asher et al. Specifically, applicant's amendment limits the claimed material to a colored pigment. Webster's Collegiate Dictionary, 10th edition, defines pigment as "a substance that imparts black or white or a color to other materials". The same dictionary defines "color" as "the aspect of objects ... that may be described in terms of hue, lightness, and saturation". The colloidal particles of Asher cannot be viewed under this common meaning as a colored pigment, which is now a limiting feature of all the pending claims.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
